

THE LOS ANGELES TIMES

FRIDAY MORNING, APRIL 12, 1907.

THE JURORS WHO SAT ON THE THAW CASE AND ARE UNABLE TO AGREE.

THAW'S FATE IS YET UNDECIDED BY JURY.

Jerome Will Re-Prosecute If Verdict Is Not Returned.

Long Hours of Secret Wrangle and Contention Fail to Result in Finding—White's Slayer Confident and Cheerful—Jurors Twice Enter Court and Ask for Assistance of Fitzgerald—Appear Wan and Haggard.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, April 11.—Deliberation of thirty-one hours by the jury in the Thaw case tonight failed to result in a verdict. At 11:45 o'clock tonight the jury was ordered back up for a second day of deliberation.

The jury, which entered the courtroom at 9 o'clock this morning, showed no signs of reaching an agreement. At 4:30 o'clock Justice Fitzgerald announced a recess until 9 o'clock.

The jurors returned tonight from dinner, one of them—John S. Denne—carrying a grip. This seemed an indication that the jury had either reached a verdict or expected to be discharged tonight.

Thaw was brought over from the prison after dinner and was visited in the prisoner's pen by his mother, his wife, the Countess of Yarmouth and Mrs. Carnegie. All of the women seemed greatly fatigued by their long day's wait.

The prisoner's mother appeared entirely worn out as she went to cheer her son, after dinner. She found him still smiling and confident.

The early evening passed without incident.

DAY OF UNCERTAINTY.

Twice during the day the twelve men who took their places in the jury box more than two months and a half ago filed into the courtroom and asked the court's assistance in an endeavor to bring back an agreement.

They appeared wan and haggard, after wrangling through all of last night in the stuffy little conference room at the Criminal Courts building.

CHRONOLOGY OF THAW CASE.

THESE are the chief events in the Thaw-White tragedy:

1906—June 25, Thaw shoots and instantly kills Stanford White on the Madison Square Roof Garden.

1907—January 23, Thaw arraigned for trial before Justice Fitzgerald in the criminal branch of the Supreme Court; drawing of jury commenced.

February 4, taking of testimony begins; prosecution puts in its case during the forenoon; defense opens.

February 7 and 8, Evelyn Nesbit Thaw, wife of the prisoner, testifies to the story of her ruin by Stanford White, which she declared she told her husband, Harry Thaw.

February 12, "brain storm" theory advanced by alienist for the defense.

February 14, death of juror's wife stops the trial.

February 18, 19, 20, 21, 25, 26, Jerome cross-examines Evelyn and attacks her story of her downfall.

March 3, Thaw's defense closed; prosecution opens in rebuttal.

March 18, Abraham H. Hummel puts in photograph of last page of Evelyn's alleged retraction of charges against White.

March 20, Jerome halts trial to demand a commission to test Thaw's present sanity.

March 26, commission appointed by Justice Fitzgerald to decide on Thaw's mental condition.

April 4, commission, after having examined Thaw, reports him sane; trial ordered resumed.

April 8, Lawyer Delmas begins final appeal to jury.

April 10, Dist. Atty. Jerome made his argument; Justice Fitzgerald charges the jury.

April 11, jury still out.

FIVE TO ONE ON ACQUITTAL.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, April 11.—[Exclusive Dispatch.] In every place in which sporting men assemble, bets were made tonight on the result of the Thaw trial. The consensus of opinion was that there would be no conviction on the charge of murder in the first degree. The odds given by those who held that the jury will disagree were 10 to 1. The odds given by those who believe Thaw will not be convicted were 5 to 1.

Jerome, when asked tonight if in case of disagreement of the jury, he would retry Thaw, replied: "I certainly will."

The District Attorney was asked a question by a reporter as to whether he had any intimations as to the way it stood.

"Based on an opinion, however, on my experience, I am ready to say that I believe that six are standing for conviction, four for acquittal on the ground of insanity, and that the other two are blanks. This is only a guess, remember."

The most significant thing said tonight by a person identified with the defense, which was overheard, was to the effect that it would be a pretty safe bet just now to say that eight men on the jury are for acquittal, with the other four fighting for a manslaughter verdict, and two of the former leaning toward the majority.

FIFTEEN DIE SLOWLY IN CANADIAN WRECK.

Fire Creeps on Them as They Lie Pinned Helpless Under Fallen Cars. One Victim Bids Rescuers Leave Him to His Terrible Fate.

(BY DIRECT WIRE TO THE TIMES.)

OTTAWA (Ont.) April 11.—[Exclusive Dispatch.] An appalling disaster, the most terrible in one respect that has taken place in the history of the Canadian Pacific Railroad Company occurred at Brunel, twenty-two miles west of Cheltenham, on the Lake Superior division of the road, yesterday forenoon, when fifteen persons—three men, six women and six children—were killed.

The train, which left Montreal on Tuesday at 4:40 a. m., known as No. 1 Pacific Express, was derailed at Cheltenham at 5:10 yesterday, but it lost about five hours on the journey.

Apart from the loss of time, all went well until Brunel, a small siding, was reached. There it was thrown from the track, the derailment being caused by the snapping of a rail. The train was hurled down the embankment which traversed the woods at that point, and five of the cars speedily became a blazing mass. The fire started from the acetylene gas system.

The engine, express, and mail car kept the rails, but the baggage car and contents were destroyed in the conflagration.

The dining car and sleepers escaped. The scene immediately after the wreck was replete with harrowing incidents.

One man was pinned by the feet between two coaches and was unable to move.

Another young man, who was lying on the ground, was nearly killed by the top of the car, which fell on him. He was rescued by the first aid party, but he was badly injured.

MERGE RUBBER IN VAST TRUST.

SUCH IS KING LEOPOLD'S PLAN WITH ROCKEFELLER.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, April 11.—[Exclusive Dispatch.] Negotiations are now under way for the formation of a world-wide rubber trust by the consolidation of the United States Rubber Company and the Intercontinental Rubber Company, which control the vast sources of the raw product in Mexico and the Congo. It was learned tonight that committees have been appointed from each company to consider the terms of consolidation and obtain data upon which the earning power and resources of the companies are estimated.

If the consolidation is effected, a great parent company will be formed to issue securities not less in amount than \$150,000,000, which will be the most powerful factor in the rubber trade of the world. In the company there will be represented such interests as King Leopold of Belgium, John D. Rockefeller, Jr., Thomas F. Ryan and the Guggenheim syndicate.

MICHIGAN REDUCES FARE.

LANSING (Mich.) April 11.—The 2-cent railroad fare bill recently passed by the Senate was passed by the House today, with only one dissenting vote.

FRICK TAKES TOGA OF SENATOR PENROSE.

(BY DIRECT WIRE TO THE TIMES.)

HARRISBURG (Pa.) April 11.—[Exclusive Dispatch.] The passing from favor of Senator Penrose has no pathetic features. He has been struck down by the powers that protect him so long, namely, the Pennsylvania Railroad, been appointed there with his family, so the plan is to make Frick a United States Senator and keep Penrose at home.

Henry C. Frick is the dominant power.

As January, 1906, approaches, Senator Penrose will be told that the East has a Senator, and that the West will not agree to both men coming from that section. Senator Knox resides at Valley Forge with his family, so the plan is to make Frick a United States Senator and keep Penrose at home.

FOILS AN ASSASSIN.

Carnegie Has Very Close Call.

Anarchist With a Keen Dagger Arrested at Hotel Door by Police.

Claims Los Angeles as His Home and Would Kill Rich Men.

Impressive Ceremonies at the Dedication of the Art Institute.

(BY THE ASSOCIATED PRESS—P.M.)

PITTSBURGH, April 11.—[Exclusive Dispatch.] What the police claim was a plan to assassinate Andrew Carnegie at the Hotel Schenley was frustrated here today during the ceremonies of the dedication of Carnegie Institute. With a dagger concealed in his hand, a man tried to make his way into the hotel, declaring that he must see the steel master at once. Failing in his attempts to bribe the detectives who were guarding Mr. Carnegie, the man became violent and was only hustled off to the Oakland police station after being clubbed into submission.

When arrested the would-be assassin described himself as Frederick Slagle, 32 years of age, of Los Angeles. He declared that he came here last night for the sole purpose of "killing" Mr. Carnegie.

PASSES THROUGH POLICE LINES.

A police guard had been thrown around the hotel, but as he was well dressed and appeared to be a person of some importance, he was passed by the outer cordon. Slagle stated that he must see Mr. Carnegie at once on very urgent business.

This aroused the suspicions of the officers, and when the man remained standing with his right hand in his waistcoat pocket, he was clubbed and hustled off to the police station.

DEDICATING THE INSTITUTE.

The first ceremonies in connection with the dedication of the Carnegie Institute of Pittsburgh, which will extend over three days, began at 9:30 o'clock today when William N. Brewster, president of the board of trustees, welcomed the invited guests from England, Germany, France, Belgium, Holland, South America, Canada, the United States, and the founders of the institute.

Addresses of international importance were delivered by Theodore Von Moeller, Minister of State, Germany; Paul Droumer, formerly Speaker of the Chamber of Deputies, Paris; Andrew Carnegie; Baron D'Estournelles de Constant, member of the Senate, Paris; and Dr. John Rhys, principal of Jesus College, University of Oxford.

President Brewster of the board of trustees, presided and in a brief address lauded the benevolence of Mr. Carnegie. The following letter from the President, who was unable to attend was read:

THE PRESIDENT'S LETTER.

WASHINGTON, April 11.—My Dear Sir: I am not able to be present myself with you, therefore let me, through you, express my appreciation of the great work done by the founding of the Carnegie Institute. Wealth is put to a noble use when applied to purposes such as those the Carnegie Institute is so well designed to serve. Every such institute, every foundation designed to serve the education, uplifting of our people, represents just as much gain for American life, just as much credit for us collectively, as a nation. The success of our republic is predicated upon the high individual efficiency of the average citizen, and the Carnegie Institute is one of those institutions which tends to bring about this high individual efficiency. Many things go to make up such efficiency. There must be a sound body; there must be physical hardihood and address in the use of trained nerves and muscles. There must be a high degree of trained intellectual development, a high degree of that intelligence which can only be obtained when there is both power to act on individual initiative, and power to act in disciplined co-ordination with others. And finally there must be that training on the moral side which means the production in the average citizen of a high type of character, the character which sturdily insists upon rights, and no less whole-heartedly and in the fullest fashion recognizes the fact that the performance of duty to others stands even ahead of the insistence upon one's own rights.

Through you, I extend my heartiest congratulations to Mr. Carnegie, and my wishes that he may have many happy returns of this day, together with the acknowledgment which all of us must make to the public service he so signally renders when he founds institutions of this type.

Sincerely yours,

THEODORE ROOSEVELT.

Minister of State Von Moeller in

BUTCHERS GET "KNIVES" OUT.

Prepare for Another Whack at the Packers.

Despite Defeat, Meat Cutters Plan a Strike.

Donnelly Tells Some Things They May Do.

(BY THE ASSOCIATED PRESS.—P.M.)

CHICAGO, April 11.—Butcher workers, who filed up the meat-packing industry throughout the country in 1904, and who finally suffered defeat in the struggle, have been organizing for several months, and it is stated, are about to present demands to the packers.

The packing-house butchers in South Omaha, St. Louis, East St. Louis, St. Joseph and to a certain extent in Kansas City and St. Paul are joined with the Chicago butchers in the movement.

A meeting of the Amalgamated Meat Cutters and Butcher Workmen of America is to be held in New York, April 12, to fix a date for "concerted action" in presenting the demands. Joseph Masterman of New York, second vice-president of the butchers' organization, is in Chicago conferring with President Donnelly.

Donnelly said tonight that the butchers' union was "in better shape now than at any time since their defeat."

At that time the union was almost completely disorganized, an account of the dissatisfaction among its members over the terms of the settlement, but according to Donnelly, three-fourths of the killed butchers employed by the packers have again joined forces. Donnelly declined to state the demands that may be made on the employers.

STRIKE AT BISHOP.

(BY THE ASSOCIATED PRESS.—P.M.)

BISHOP (Ark.) April 11.—The second day of the strike called by the local union of the Western Federation of Miners developed but little change in the situation. The number of men on strike, or who have left the camp on account of the strike is relatively placed at 715. Of this number 400 are from the Copper Mines and the remainder distributed between Calumet and Arizona, Superior and Pittsburgh, and the Shattuck mines.

All the shafts continue to work in two shifts, but with a reduced force.

Manager Rawlings issued a statement today claiming that 75 per cent. of the men employed in the district were out.

This would mean that the 3600 men employed for the several companies report less than 600 men have accepted their time on account of the strike, and have been paid off.

PARIS STREETS PATROLLED.

(BY THE ASSOCIATED PRESS.—P.M.)

PARIS, April 11.—There was but little indication that a strike movement had begun, but bicycle policemen patrolled the principal thoroughfares and the public buildings generally were guarded by troops. The strike movement in the vicinity of the Labor Exchange a battalion of infantry was kept under arms.

Detachments of cavalry patrolled the Place de la Republique and the vicinity of the Labor Exchange, where 20000 laborers, many of whom had gathered, red flags were displayed upon the platform, revolutionary songs were sung, and the leaders recapitulated the grievances of the laborers, which are principally connected with the non-application of the day of rest law. Telegrams were sent to the present has resulted in a fiasco.

LABOR BRIEFS.

(BY THE ASSOCIATED PRESS.—P.M.)

Bluffing the Passengers. SEATTLE, April 11.—In an effort to discourage the coming to Treadwell, Alaska, of strike-breakers, or men to replace the striking miners, passengers leaving Seattle on the steamer Jefferson and Portland last night were warned by union men on the wharf not to go around the mines, as "serious" trouble might arise there at any time.

Stampede of Strikers.

(BY THE ASSOCIATED PRESS.—P.M.)

LOUISIANA (O.) April 11.—There was a regular stampede among the strikers returning to work at the local yards of the Louisiana Sugar Refining Company today. The number of men who went back is estimated at between 700 and 800. The iron ship-builders, however, stayed out.

MURDER CHARGE DISMISSED.

(BY THE ASSOCIATED PRESS.—P.M.)

Louisiana Grand Jury Fails to Find a True Bill Against Congressman George Favrot.

(BY DIRECT WIRE TO THE TIMES.)

BATON ROUGE (La.) April 11.—[Exclusive Dispatch.] By unanimous vote, taken within three minutes after all the evidence was in, and after a discussion of that duration, the grand jury of the District Court of East Baton Rouge parish brought in "not a true bill" in the case of the State of Louisiana against Congressman George K. Favrot, who has been in jail since the night of November 7, charged with the murder of Dr. R. H. Aldrich, a prominent physician of Baton Rouge, for a remark he is alleged to have made about Mrs. Favrot.

The verdict of the jury was returned to the District Court at 3:30 o'clock this afternoon, and within a few minutes Congressman Favrot was released from jail and on his way home, receiving the hearty congratulations of his friends.

RUINED BY FORTUNE.

(BY THE ASSOCIATED PRESS.—P.M.)

An Aristocratic Englishman Who Ran Through \$150,000 in Eleven Months.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

LONDON, March 27.—Ruined by fortune! Such, in a nutshell, is the story of Jocelyn Robert Augustus Riley. He ran through \$150,000 in eleven months—was swindled out of most of it—and has since for years, in various climes, been living the life of the social outcast, the man for whom the world has no use. There is a lot of blue blood in him. His father was Capt. Frederick Augustus Riley, who served with distinction through the Crimean War. His uncle is Lord Stafford. The Earl of Manchester stood godfather for him at his christening. A few days ago he appeared in the dock of Bow-street Police Court, charged with stealing an overcoat. He was released on his own recognizance, as the evidence made it clear that some other fellow really stole the garment, and unloaded upon Riley the proof of his guilt.

"So you want my story for an American newspaper," he said. "You think I would look well in type, as a sort of human document illustrating the ruin that follows the sine of the most aristocratic of men. I suppose a sense of shame. To begin with, then, I must have been born a sinner."

"But I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

"No, I wasn't," he said. "I was born in America, started by his glib usage of American slang."

75c Muslin Skirts 50c

The first of two splendid bargains
for today from the muslin under-
wear section. They have wide
flounce and wide ruffle, trimmed
with tulle lace and tucks.
Others have wide hemstitched
hem and cluster of tucks above.
Our regular 75c skirts, for today
50c—Third floor.

75c Gowns at 47c

They are made of good quality
muslin, with high or V-shaped
neck, trimmed with deep yoke or
embroidery insertion, cut full,
long, wide. Special for today, 47c.
Third floor.

Clear the voice. Alleviate the
irritation caused by cough-
ing. Use when required.

35 WEST THIRD STREET
THAW'S FATE.

(Continued from First Page.)

evidence that the jury's deliberations
were hinging on the question of the
insanity or sanity of the defendant,
as shown by the defense.

The jury showed an almost startling
familiarity with the evidence, and the
testimony they desired to hear again
was given in part by persons who were
not referred to in the summing-up
speeches of either Delmas or Dis-
Atty. Jerome.

VERDICT ON EVIDENCE?
From the manner in which the jury-
men wished to go over the evidence in
all its details, it was surmised that
a verdict, if reached at all, would be
predicated entirely on the evidence,
and not on the "unwritten law."

Justice Fitzgerald spent the entire
evening in his chambers awaiting the
pleasure of the jurors.

After reading the newspapers this
morning and just before coming over
to the courtroom, Thaw sent a note to
the newspaper men, saying there were
many misstatements in the papers;
that he would like to give out a
statement, that would be official. It
was as follows:

"I am told that it is impossible to
tell what a jury will do, so I am at-
tending to my ordinary affairs, but pre-
paring for the best, as it is simpler to
unpick my things than it would be
to retract them for them if the verdict
is favorable.

"I had a very cold bath. The bath-
room always is filled with fresh air
in the early morning, with the same tem-
perature as outdoors. Next I had weak
coffee and rolls as usual. These de-
tails must have interest, as they are
often untrue.

"HARRY K. THAW."

WHITE PAINTINGS SOLD.
LOW PRICES ARE REALIZED.

(BY THE ASSOCIATED PRESS—P.M.)
NEW YORK, April 11.—Stanford
White's modern paintings were sold at
auction tonight by the American Art
Association and realized \$29,572. A few
well-known names such as Innes, Has-
sall and Curran brought high prices,
but the other paintings sold at low
figures.

"Cornellie and Mollere," one of
Cornellie's gold medal pictures, which
sold in the A. T. Stewart sale years
ago for \$500, went to Edmund Hol-
brook, for \$100.

Senator W. A. Clark purchased two
pictures to add to his collection of im-
pressionists "After the Bath," by Glus-
soppe Boudin, for \$100, and "In the
Garden," by Adolph Monticelli, for \$100.

EMPTY CANISTER
And How it Led to Knowledge of
Better Things.

A housewife found the coffee can-
ister empty, one day, which proved a
blessing to her husband and mother.

"Up to about four years ago I had
been a great coffee drinker. I was
morning cup I would be weak and
nervous.

"A friend told me I must quit drink-
ing coffee and suggested that I try
Postum. The first day I did not en-
joy the taste of Postum very much,
for the reason, as I found out later,
that I did not make it right.

"I soon learned to boil it hard for
15 minutes, according to directions,
and soon I was enjoying my Postum
as much as I had formerly enjoyed
coffee. The headaches quit as well
as the weak, nervous feelings, and
the improvement in my health was
commented on by my family and close
friends.

"For some time I served both coffee
and Postum at our table, as my
mother and husband would not give
up their coffee. One morning I found
the coffee canister empty, so I took
special pains in preparing the Postum
and said nothing about not having
coffee to serve.

"During a visit to an aunt's they
all drank coffee except myself and
little girl. Gradually one and then
another would try Postum until, when
I left for home, all but two out of the
family of ten were using it, and all
were greatly improved in health.

Later I learned that coffee never ap-
pears on their table nowadays." Name
given by Postum Company, Battle
Creek, Mich. Read the little book,
"The Road to Wellville," in pkg.
There's a Reason."

Bargain Friday

No. 379

BOTH PHONES EXCHANGE 337

Broadway Department Store

Broadway Cor 4th—Los Angeles.

Arthur Latta

A Great Sale—200 Pairs Womens Oxfords 98c \$1.50, \$2.00 to \$2.50 Values

Odd lines, broken sizes and
some slightly factory damaged.
We are stating the values ex-
actly as they are, for they are
among the most unusual values
we've been able to offer in a
sale for many a day. The
Broadway Shoe Store is a cen-
ter for low shoe prices all the time.

Oxfords made of patent cloth, in ribbon tie styles; oth-
ers of soft kid, oxford or blusher styles. All hand-turned
soles, stylish, dainty toe shapes. Even many of the shoes
have rubber heels. Made with comfort shaped toes. All
sizes in the lot.

A special and unusually oppor-
tune purchase makes us able to
throw them out today in a big
bargain value. Aisle 5 the place, 98c
the price. Come as early as you
can, for the values should bring
crowds.

600 Curtain Samples 19c Each

Half pairs of curtains; many worth
as high as \$3.50 in full pairs. As
long as 600 of them last, Friday, they
will go at 19c each. Commercial trav-
elers' samples of fine lace curtains—
2 yards long—beauties, every one of
them. Practical for bungalow and
cottage windows. Hurry for best as-
ortment. Third floor, today, 19c
each.

Sale Pictures at Half Price

Drummers Samples
A time for rooming houses and hotels to fill their
wants. A commercial traveler, who finished his
route here, sold us the sample line at half regular.
Then we reinforced the lines with hundreds of pic-
tures from our own stock. Sale now on third floor.

Sale Men's Gloves 50c Broken Sizes—\$1.25 to \$2.00 Values

Men's white dressed kid gloves and a few light tan,
broken sizes of Lucan & Kennedy's \$1.50 gloves, and
a few Perrins. They won't last long at 50c. Hurry
—Aisle 7, today.

25c Neckwear 12 1-2c

Our regular 25c shield towels
for men. Marked down to
half price for a Bargain Fri-
day. Aisles 7 and 8.

Ten Pieces Linings 10c Yard

Left over from the Hirschler stock. Plain and fancy 25c quality. Today,
aisle 11, 10c yard.

WOOL CHALLIE 39c.

Much of it 60c values. Dots, figures
and Persian patterns. Aisle 10, Fri-
day, 39c.

48c SUITING AT 39c.

Forty pieces of checks, plaids, mix-
tures, in gray, tan, green and other
colors. Aisle 10, Bargain Friday, 39c.

48c EOLIANNE 29c.

In white, cream and black. 38 in.
wide. Today, aisle 11, 29c.

Men's \$12.50, \$15.00 and \$17.50 Suits \$9.35 Friday

And a good many of our
new spring suits are in-
cluded in the lot. It's a
one day clearance of odd
lines. All sizes included
in the lot, but not in ev-
ery style. It's good mer-
chandising to keep stocks
straight and clear, and
we're going to move out
scores of these suits Fri-
day at \$9.35. They come
in small checks and broken
plaids. Then there are
solid grays and gray mix-
tures. Both single and
double breasted effects.
It's a bargain opportunity
of immense importance to
men. Come as early as you can. Today, sec-
ond floor, \$9.35.

Men's Dress Pants \$2.25

Bargains For Friday
Just 250 pairs; new spring patterns; not a
pair worth less than \$3.00. Many \$3.50 and
\$4.00 values included. Pants of all wool, tweed,
worsted and cassimeres; fine striped and neat
patterns; cut according to the styles that men
like best now. Both light and dark colors.
\$2.25, second floor, Friday.

For 2 pairs shoe laces.
For 2 darning eggs.

Horseless carriages— Wireless telegraphy— Now lardless cookery

Improvement is the order of the age.
There was a time when Lard was considered
the only shortening. To-day, the only people
who use lard for shortening and frying pur-
poses are those who are not familiar with the
virtues of *Cottolene*. It pays to be abreast of
the times. *Cottolene* is not only superior to
lard from a health standpoint, being a vegetable
rather than an animal product, but it will make
more palatable food than lard; and it is more
economical than lard because, being richer, one-
third less is required than of lard or cooking butter.

Lard cooked food is not digestible because
lard is a hog-fat product. *Cottolene* makes food
more digestible and healthful because it is es-
sentially a product of nature and contains only
that which is digestible, healthful, and a real
means of sustaining life.

If your grocer is an up-to-date, progressive
man, he will have *Cottolene* in stock. More than
that, if he has ever used it in his own family,
he will recommend it in preference to lard or
cooking butter. If he does not do this, it is
only because he is unfamiliar with the virtues
of *Cottolene*. Prove our claims to your own
satisfaction by giving the product a fair test.

Give *Cottolene* a good, fair test, use it
according to directions, and note the benefit
to your digestion. You'll
never go back to Lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Help" a book of 300 choice recipes, edited by Mrs. R. E. Brown, for a 2 good volume, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent all-tight top on this roll is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

Nature's Gift from the Sunny South.

EXCURSION TO Searchlight, Nev. TONIGHT

The Santa Fe will run a special train of Standard and Tourist Pullman Sleepers to Searchlight tonight. The train will leave Los Angeles at 7:30 P.M. and arrive at Searchlight tomorrow morning at 9 o'clock. The train, returning, will leave Searchlight Sunday at 7 P.M. and arrive in Los Angeles at 8:30 A.M. Monday morning. The round trip fare from Los Angeles will be \$12.00 and tickets will be good for ten days.

I Will Give You Free

FOUR \$100 SHARES, each of which, legally and intrinsically, is worth \$100.00, with every 1 per cent. twenty-year mortgage bond that you buy for \$80.00, and every single bond secured by first mortgage loan, on valuable property that is legally and intrinsically worth \$100.00 and will sell at that rate as soon as transportation and mailing facilities which are now making completion shall be finished. I will do this in a company in which such sums of \$100.00 are represented by the purchase of one share of the Colorado Fuel & Iron Co., Inc. Col. C. F. Meek, former manager of the Union Pacific Railroad, Dr. C. F. Brackett, professor of physics at Princeton University, Chas. Austin Bates, president Knickerbocker syndicate, New York, A. J. Mitchell, retired mining and civil engineer and yachtsman of Terminal, Cal., and others equally well known, have, after personal examination, invested large sums of money on EXACTLY THE SAME BASIS as you are asked to invest a small sum. It is hardly necessary to say that with these men as managers and directors the honest, capable and conservative management of the Company is assured.

The Colorado Fuel & Iron Co., Inc. has perfect title to 240 acres of 300,000 cubic feet of the purest white marble on earth. 120 acres of blue marble, 120 lots in the growing city of Marble City, Col. 500 acres suburban land, water falls of 300 horse power, 8 miles of railroad almost completed and equipped, sawing and shanking mills, and quarry equipment.

The white marble alone is a conservatively estimated as being worth from \$400 to \$2500 per cubic foot. Figures at \$4.00, 300,000 cubic feet are worth \$1,200,000.00.

The Company is organized for \$2,000,000, divided into 20,000 shares of \$100 each, so that each share of stock represents 1,250 cu. ft. of marble or \$500.00. This, you see, does not take into consideration the value of the other property of the Company that is equally valuable. No stock of this Company can be bought, but you can

use of \$100.00 a per cent. mortgage bonds secured by all the above property and more, has been authorized, of which \$100.00 are now offered for sale. The bonds are sold for \$80 each in four monthly payments of \$20.00 and four \$100 shares of stock are given, as a bonus, with each bond.

So, the Company did not have to issue here to sell than bonds but had refused to offer a few here.

Do not let your prejudice or your conservative caution blind your eyes to the fact that most of the immense fortunes of the world have been made in just such enterprises as this. \$100 invested in *Cottolene* and *Searchlight* has become worth \$100.00, and this is a steeper, better and a whole lot safer proposition than Calumet and Hecla was. It is more promising than Bell Telephone stock was. There is no element of chance about this. We have the material and know that there is a big demand for it at a good price. All we have to do now, is to provide the facilities to bring it to market, and then we are all meeting completion. AN EXCLUSIVE PRIZE BASED ON A STAPLE COMMODITY. LARD. THIS HAS NEVER EXISTED. IMMEDIATELY PAID. NEVER. It has invariably made big winners and those who invested with them on the ground floor as you are asked to do, rich men. Don't hesitate. Don't procrastinate. Just it is too late. Seize your opportunity while you have it. It has been estimated by many of the big men connected with this enterprise that this roll will pay dividends of 100 per cent. per year, and \$100 per stock that does that is worth \$100.00 on the New York market any day you choose to offer it.

Send for a copy of the detailed information and show your engineers, architect, and marble expert, reports, etc., and take your subscription. Come and see me or fill in the enclosed subscription blank and mail it to me with your check for the first payment. Attend to it now.

CHAS. C. POLK, High Grade Securities
427-B-9 Merchants Trust Bldg., 207 S. Broadway, Los Angeles, Cal.

The undersigned hereby makes application for..... of the \$100 a per cent. twenty-year Mortgage Bonds of the Colorado Fuel & Iron Co., Inc. the total authorized issue of this series of bonds being \$200,000. It is understood that with each \$100 share of stock the undersigned is to receive a bonus of four \$100 shares of the full-paid non-assessable stock of the Company.

Payment to be made at the rate of \$20 and accrued interest from December 1, 1906, for each bond—25 per cent. herewith and 25 per cent. on the 10th of every month for three immediately succeeding months. (Checks payable to the Knickerbocker Syndicate.)

(BY THE ASSOCIATED PRESS-P.M.)

STANFORD UNIVERSITY (Cal.)

April 11.—At last night's meeting

of the associated students that body

unanimously voted to offer Trainer

"Dad" Moulton a four years' contract

with an advance of \$800 over his present

salary. This will make the trainer's

income from the student body \$1800

a year. Today Moulton expressed great

pleasure at hearing of the unqualified

increase in salary, and intimated his

willingness to accept the offer.

(BY DIRECT WIRE TO THE TIMES.)

CLAREMONT, April 11.—(Exclusive

Dispatch.) The Ontario (High School

baseball team defeated the Pomona

College nine on the college diamond

this afternoon by a score of 3 to 2.

This is the third consecutive season

that the High School team has

defeated the collegians. Ontario has not

lost a game this year and will play

Redlands on Saturday for the cham-

ionship of the Orange Belt League.

Pomona was woefully weak with the

stick in the first part of the game, but

managed to improve toward the latter

part. Both teams made a number of

costly errors, but with the exception

of one made by the college they did

The new town that started with its future all carved out

Grows Greater Every Day

WILMAR

FOLLOW THE TRAIL OF THE TROLLEY

The Sooner You Buy the Closer You Get to the Throbbing Business Center

The business and manufacturing section of the new town will be the heart of all activity. Go out now and see the identical spot upon which the new denatured alcohol plant will soon be erected. See the spot upon which the new freight, express and passenger station will be built. See 50 teams at work grading new streets and an army of men working on the railroad right-of-way. Lumber and other materials are being shipped now for the new planing mill, lumber yard and business block. Don't wait till every lot is laid out and then try to pick locations when too late. If you want a home in the most beautiful valley around Los Angeles, or a business or factory site, where things are doing, or if you want to make an investment where your money is secure and your profits assured, go to Wilmar—and go now.

KEEP YOUR EYE ON BEATTY

The Chicago of Nevada Upon a Throne of Gold

BEATTY AND BE CONVINCED of what a magnificent destiny is here. See with your own eyes the city and let your own faculties paint the picture of Beatty's future. You will agree with us that Beatty's commercial supremacy will entitle her to be called the "Chicago of Nevada."

You will see the yards and roundhouse of one railroad which has adopted Beatty as its most important base. You will see where a second railroad is building in to connect with the Southern Pacific via Goldfield. You will see the tracks of the railroad may add another invaluable resource to the ample assets of Beatty. Derrick and drill have been ordered to test the value of the find.

BEATTY IS THE QUEEN CITY OF THE BULLFROG DISTRICT. About her feet are grouped a galaxy of gold mines—the great Montgomery-Shoshone, which has already blocked out nearly fifty millions in ore, the Banner, the Midas, Grand Deposit, Old Sol, Mayflower, Gibraltar, Tramp Consolidated, Homestake King, Yankee Girl, National Bank, Bullfrog, Teddy, and Lucky Jack—mines in ore and shippers of bullion, besides a host of younger properties with hopeful superficial indications, any one of which may prove a million maker.

Only a week ago a few shots in a shallow shaft brought to light armfuls of ore sticking full of free gold. This occurred on the Townsite mine, just on the rim of Beatty, scarcely a mile from the Hotel corner at Main and Third streets. THIS IS TOWNSITE OWNERS' LUCK.

Every condition conspires to constitute a metropolis at the townsite of Beatty. Reported discovery of petroleum alongside the tracks of the railroad may add another invaluable resource to the ample assets of Beatty. Derrick and drill have been ordered to test the value of the find.

Join Our Special Excursion

TAKE OUR WORD FOR IT, or let our eyes lead you vision, when you may see for yourself by Beatty, that the boom is on, building is in full blast, mines are being exploited for their treasure, and all of business are budding. By your own perception you may calculate the results of investment as well as the townsite themselves.

TAKE YOUR LOT BEFORE YOU GO. Prices may advance before your return. Remember, every lot is a money maker. We shall be happy to have you join our second excursion, which starts on Monday morning at 8 o'clock. Come with us, and we will proudly show you this young city and convince you that all that we have said about Beatty's possibilities is true, and more, too. The price of a lot is \$24.65. If you buy lots to the amount of \$500 or more, your fare will be refunded. Please come to this office as early as possible, if you intend to go on this excursion.

Our excursion will start from the Salt Lake station, Los Angeles, tonight at 8 o'clock, arriving at Beatty on Monday morning. Return will be made Monday morning, arriving in Los Angeles Tuesday morning. Special rates will be attached to the train going and coming. You will have nearly two days to spend in Beatty, and a good time to all who come along.

Wealth of Artesian Water

While the values of petroleum and mineral deposits are speculative, the worth of BEATTY'S WATER SUPPLY IS KNOWN AND MEASURED TO BE MAGNIFICENT. Resting secure upon inexhaustible fountains of pure cold water, Beatty invites thousands to come and settle.

Purchasers of lots in the townsite can make only one mistake—THAT OF DELAY. Every moment of hesitation means curtailment of profits. The legend "Sold," "Sold," is stamped upon dozens of platted lots every day at our office. EARLY CHOICE MEANS QUICKER GAINS. Business lots are now selling at \$500 and up. Similar lots in Goldfield bring \$5000 to \$40,000 at the present time. Five years hence Beatty's values will have surpassed Goldfield's. Buy NOW, while lots are cheap—From \$500 up—and while easy terms can be arranged.

Call at this office if you can. If you can't come, fill out the reservation order in the corner of this ad., and we will mark off the best lot, in our opinion, at the price you specify.

TAFT OUTLINES CUBA'S FUTURE.

TELLS PROGRAMME, BUT NO DATE FOR EVACUATION.

Attitude of United States is Unchanged and Until Sufficient Time is Given to Take Census and Do Preliminary Work Occupation Will Continue as Now.

[BY THE ASSOCIATED PRESS.—A.M.] HAVANA, April 11.—Secretary Taft has given out a statement addressed to Gov. Magón. It says: "After having conferred with committees of the Liberals, Conservatives and Republican parties, and the leading men of the community, including lawyers, bankers and representatives of the Chamber of Commerce and others, I make the following recommendations, having in view the circumstances making intervention necessary: "First—It is hardly necessary to reiterate that the position of the President is exactly what it was when the first proclamation was issued establishing a provisional government under the Platt law in this island, to-wit: That Cuba must be turned over to a Cuban government, fairly elected, as soon as the conditions permit, and the stability of the government established is assured. "Second—I do not think four months a sufficient time for the taking of a census necessary for an election. It would be most unwise, therefore, to fix a definite date for holding a preliminary election. All that can be done is to declare that the census be taken in as short a time as possible, and in accordance with the conditions of the preliminary election shall be held in such period thereafter as may be determined by the provisional government. "Third—The municipal and provincial elections should be held at the same time. "Fourth—Three months may not be sufficient in which to test the questions of tranquility and the success of experimental preliminary election; therefore our declaration would not be more limited than that the national election shall be held within six months after the preliminary election. "Fifth—It is proper to comply with the constitutional requirement regarding an interval of one hundred days between the Congressional and Presidential elections, and the voting by the electoral college, the assembling of Congress, and the inauguration of a new President. "Sixth—The carrying out of this plan, of course, is strictly dependent upon the tranquility of the country. [Signed] "WILLIAM H. TAFT."

PIPE LINE HERE FROM KERN.

At a meeting held yesterday at Bakersfield, William Ellery resigned as president of the Independent Producers' Agency, and L. P. St. Clair was chosen in his place. Mr. St. Clair is a prominent business man of Bakersfield, and has interests both at Kern River and Coalinga. The old board of directors was re-elected.

Among other matters brought up for discussion was the possibility of building a pipe line to the coast via Coalinga. Nothing was done toward putting the plan into effect. A scheme for a new pipe line to the coast via Coalinga was also called up.

Sale Report Denied.

For several days a report has been circulating in oil circles upon the authority of Bakersfield men visiting here that the property of the Twenty-five company has been sold, presumably to the Standard. Inquiry made by The Times at Bakersfield last night of the officers of the company, brought out a flat denial of the sale. It is publicly known and not denied that the company is ready to sell and is waiting a buyer who will pay its price.

Drilling on West Side.

The Bull's Head Oil Company that owns a refinery at Alhambra, Contra Costa county, and lands at Sunset, is drilling its first well. The rig is now up. Others who will drill are the Kernbergers, the Birch Oil Company and the Monarch, besides the Spitzley companies.

Rigs for Santa Maria.

The Union Oil Company has transferred ten of its rig buildings from the Fullerton oil fields to its various leases in the Santa Maria district, and it is said they will be up there several weeks, as a number of new wells are to be commenced.

BURGLAR MAKES CIRCUIT.

Visits Five Residences in Southeastern Section of City and Secures Much Plunder.

Five burglaries were reported from the vicinity of Twenty-first and San Pedro streets Wednesday night, all of them believed to be the work of one man. J. O. Wallburg of No. 1500 South Los Angeles street, reported that a thief entered his house between 8 and 9 o'clock Wednesday evening, and stole a lady's watch, a solid gold neck chain and \$54.

The thief, encouraged with his haul, entered the home of C. O. Payne, No. 1115 East Twenty-first street, and took a purse containing \$4, but found nothing else to his liking. He next visited the home of George Burris, No. 1174 East Twenty-third street, about 1 o'clock yesterday morning. Burris was awakened and the thief became frightened and fled.

Another hour elapsed before the thief tried again. This time he entered the home of E. N. Blackburn, No. 1232 East Twentieth street, by way of a side window. He found a gold watch and \$14.45.

Undisturbed, the thief succeeded in entering the five residences. Though the police were notified while the burglaries were going on the burglar continued his operations and secured about \$300 worth of plunder.

Reclaimed Land for Sale.

Five thousand acres of reclaimed land for sale, a whole or in subdivision. Adjoining the Pacific coast, near Yuma, California. The land is fertile, and has been reclaimed by the use of water from the Colorado river. It is suitable for raising grain, fruit, and other crops. Good water, cheap transportation by rail or river. Address Dr. L. E. Cross, 414 Main street, Stockton.

Want a Piano?

Offers of good instruments the best in the world, are to be found among the large display of pianos in the columns of The Times. But if you are looking for a piano, don't forget to see the advertisement of "Want" ad. yourself. It will surprise you to learn that so many people have what you are seeking, besides saving yourself a lot of worry.

If You Want to Go East C. Haydock.

Agent Illinois Central R.R., 118 W. Main.

Reliable Clothiers and Men's Outfitters

WALTER HARRIS CO.

Out of the High Rent District

The Best Clothing

At the Lowest Price

Is the Only Bid We Make For Your Patronage.

Why Are We Enabled to Do This?

BECAUSE we are located OUT OF THE HIGH RENT district, buy and sell strictly for SPOT CASH, have no elaborate store fixtures and superfluous expenses, which of necessity must be paid for by those who patronize stores that have to pay enormous rents and give long time credits. TODAY WE INVITE THE PUBLIC AT LARGE to visit our mammoth salesrooms and inspect the largest all brand new and most comprehensive stock of MEN'S AND BOYS' HIGH CLASS CLOTHING, HATS, SHOES AND FURNISHINGS ever placed on sale in this State, and marked at prices fully 35 TO 40 PER CENT. LESS than like good qualities are sold at any other reputable clothing store in this city.

MEN'S STYLISH SPRING SUITS, in those new gray shades of plain worsteds and handsome check weaves; also royal blue serges, black clay and fancy mixed worsteds. Sold elsewhere at \$15. Our price for Friday and Saturday, an eye-opener to all buyers

\$10

Over 1000 Men's Spring Suits

The Big Store With the Little Prices—Located Out of the High Rent District.
142 to 148 North Spring Street
Next Door to the Home Savings Bank—Just Below the Bullard Block

THE CITY IN BRIEF

NEWS AND BUSINESS.

Central W.C.T.U.

Dr. Emma F. Drake of Denver is to address the Central W.C.T.U. in Temperance Temple this afternoon at 2:30 o'clock.

Nogers to Remain in Jail.

Charles H. Nogers, who is accused of a brutal triple murder, is still in the city jail. He will be held until the papers necessary for his extradition to Middletown, N. Y., are received.

Free Garden Seeds.

Senator Frank P. Flint has sent to the County Horticultural Commissioner, whose office is in the block at the northwest corner of New High and Temple streets, a lot of garden seeds which will be distributed free on application.

Diamonds and Money Gone.

During the absence of Albert Hinson from his room at No. 118 Houston street, yesterday afternoon, a burglar secured about \$300 worth of booty. The thief entered the room with a passkey and broke open the door. He took two diamonds rings and \$100.

Says He Was Robbed.

James Taylor, No. 241 South Main street, says he was robbed yesterday night by a young man, who took \$20 from him. He says the man wrapped an acquaintance with him while Taylor was drinking in a Main street saloon, then followed and robbed him.

Levy's Busy Night.

Last night was "busy night" at Levy's. Besides the banquet of the Los Angeles Chapter of the American Institute of Bank Clerks, numbering 300 guests, there was a banquet by the Credit Men's Association, with sixty-five guests; a banquet of the Celine Club, with thirty guests; and a banquet of the Angel City Baseball Association, with twenty-five guests.

Warrants for Fifty Carmen.

Fifty warrants for the arrest of street railway employees who operate cars which are not equipped with proper fenders will be issued this morning. Detectives worked yesterday securing names of motormen and conductors of cars on which fenders are not of the type required by city ordinance which relates to fenders. They shall be of a certain size, width and style, and shall be hung within three inches of the surface of the street.

Fined for Objectionable Mail.

Charles H. Stevens, who has been on trial the past few days on a charge of sending objectionable and defamatory matter through the United States mails, was yesterday sentenced to pay a fine of \$100 by Judge W. H. Wagoner, sitting in the United States District Court. The fine was paid. Stevens was charged with sending a letter to a friend working for the Los Angeles Brewing Company, on the envelope of which appeared the words, "Humboldt Brewing Company Express."

Nurse is Mysterical.

Miss Rosa Rosenkrantz, a trained nurse, wandered into Central Station yesterday afternoon, and said she was lost. Before the woman could tell where she lived or anything about herself, she mumbled began to wander, and she became incoherent. She talked of music in which she had acted as nurse, and mentioned several people by name, but it was impossible to find out anything about her, so some of the persons are known to reside in Los Angeles. She was treated at the Receiving Hospital for hysteria, and is in the maternity department at the City Jail.

Joint Normal Meeting.

The meeting of the Joint Normal School board of directors will be held this morning at 10 o'clock at the Normal School Auditorium, when the following subjects will be discussed: "Some Essentials of Good Normal School Architecture," by M. E. Dalby; "The Fundamental Features of a Model Training School," by S. T. Black; Discussion of these two topics opened by F. Burk, and followed by general discussion. Preparation of Special Teachers by Normal Schools. With Special Reference to Artistic Instruction in the Rural Schools," will be treated by C. Van Lier, and "The Training of Supervisors of Special Subjects by the Normal School," by James P. Millspaugh, with discussion opened by Edward Hyatt, State Superintendent of Public Instruction.

BREVITIES.

J. W. Fry has moved his stock of mantels, grates, tiles and andirons to his warehouse, corner Los Angeles and Twelfth streets. There can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

Mott Meat Market, 125 South Main street, will give today: German pot roast, 50c; boiling beef, 50c; lamb stew, 60c; and chops of lamb chops, 11c pound.

Attend our removal sale of jewelry and leather goods. We can save you one-half. J. L. Fleming, 441 S. Broadway.

Our salesrooms continue crowded. Four choice of high-grade shoes for \$1 a pair; 125 Bryson Court, second and Spring.

FAIRVIEW'S BONANZA.

Statistics of Production Place the Nevada Hills Mine Among the Leading Shippers.

OLDFIELD (Nev.) April 10.—Statistics favor the owner's contention that the Nevada Hills, Fairview district, is the greatest mine of its age in Nevada. The first shot was fired at the diggings about a year ago. Up to the first day of this year the mine shipped \$121,000 worth of ore, its product averaging \$7.164.72 per carload. All the ore sent to market, net, in spite of the long wagon haul to the railroad and the hundreds of miles' distance from the smelter, \$24 per ton. Three big dividends have been distributed, and there remains now about \$100,000 cash in the treasury. That 1937 will far outdistance 1936 is indicated by the fact that within the past few days there has been opened up a new body of four feet of ore that averages \$17 per ton, and this is only a rich streak in a ten-foot ledge that all sacks, without sorting, at better than \$200 the ton. At no time has there been made a systematic effort to mine the ore for the market, the product cashed having come in the way of development, purely, and yet there has accumulated such a tonnage of high-grade that it is impossible to find the requisite number of teams to haul it to the railroad station, Fallon, forty miles from Fairview. There are five long tunnels on the domain, every one of them in shipping ore. The first consignment was sent to the Salt Lake smelters last July, and up to the first day of last month the total shipments had netted \$212,000, or \$212 per ton. With adequate transportation facilities the Nevada Hills could now clear regularly and easily \$100,000 per month. Its chief owners are residents of Salt Lake, though a large number of shares is held in Los Angeles.

KANSAS WARS ON DANDELIONS.

Every Topekan Turns Out to Weed Up Peaky Little Yellow Lawn Destroyers.

LET THE ASSOCIATED PRESS—A.M. CHICAGO, April 11.—A dispatch to the Record-Herald from Topeka, Kan., says: By proclamation of the Mayor, the 4,500 people in Topeka are expected to direct battle against the dandelion next Tuesday. Every man is expected to dig the dandelion out of his front yard. While this army is at work in front of the homes of Topeka, Gov. Hoch and all the State officers, assistants and stenographers, male and female, in the State House will close the building and wage war upon the plants in the State House grounds. One hundred boys in the Topeka Reform School will march to the Capitol grounds to the music of the school band and aid in digging up the weeds.

COTTON COMPRESS BURNS.

CHICKASAW (T. T.) April 11.—The compress of the Farmers' Compress Company, with its contents of 14,000 bales of cotton, was destroyed by fire today, causing a loss estimated at between \$200,000 and \$250,000. The loss is fully covered by insurance. The compress was owned by N. H. Anderson of Fort Worth and H. K. Wooten and T. M. Potts of this city.

BRITISH ARMY CHANGES.

LONDON, April 11.—It is announced that Gen. Sir William Nicholson will succeed Gen. Sir Neville Gerald Lytton as chief of the General Staff and first military member of the Army Council.

He Asks

"Now, what have you in the way of gas heating and gas lighting appliances?"—asks the suave inquirer of the "Paper Gas Co."
And "Is your house wired?" "Got electric fixtures?" "What electric company do you patronize?"
And a lot more.
And What Do You Say?
No doubt you FEEL like saying "Skidoo!" If you think it necessary to give REASONS, just tell him that you want to be able to buy gas as cheaply as any one does.
Therefore you will
—Sign no gas contract.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

THE OLD, OLD STORY.

It is not stretching politeness a little to call a man a hero.

If it were a foot race, we'd bet odds of a hundred to one that "Albion" would beat Tati a mile.

Los Angeles is a natural Mecca for the curious. They must cross the hot sands to get here.

The most inevitable thing a man can do is to be a grudge. Next to that comes a grudge.

The investigation law does not exclude Japanese merchants. And every Japanese is a merchant.

Some of the books that are written now are paving the way for a revolution—against the authors.

The people have ceased to take interest in railway wrecks. They have become entirely too common.

The new story of Chicago has made a doubtful start. He has appointed a woman to be his private secretary.

It will prove a great shock to the literary world to learn that Philadelphia Jack O'Brien hires a man to write his books.

The young king of Spain refers to King Edward as the peacemaker of the world. Admittedly, Edward does not read the papers.

It is perhaps worth mentioning that the unfortunate young man who killed himself in Pittsburgh, Tuesday, bore a good name.

All men are created free and equal, as stated, and to the extent the fault of themselves that they do not remain that way.

This new idea of having Presidential campaigns on its hands all the time should help the country get over its dread of them.

Senator Foraker has stuck out his head apparently with the slightest consideration of the fact that the President is half Irish.

Sometimes we think Walter Wellman is making a serious mistake by saying all this hot air of his for the North Pole balloon.

As far as can be ascertained, the committee in charge of the Pacific coast parade has made no arrangements to send East for the flowers.

If a negro were to be important in every State of the Union as he is in Ohio at the present time, the black man's burden would be light enough.

The Chicago papers say that J. M. Lewis is making a fool of himself since the late election. But surely no more so than before election.

The friends of Senator Penrose are offended because he is referred to as "the drunken Senator." And perhaps it is unjust to single out Penrose.

Montreal must be a very old-fashioned city. More children are born there, pro rata to the population, than in any other city on the continent.

What would cause a sensation in Ohio politics just now would be the announcement of Nicholas Longworth that he is a favor of Foraker.

The country's gratitude to Hearst consists of what is owed to him for his assistance in defeating bad men for office by his endorsement of them.

If there really is a "rich man's conspiracy" to nominate the next Republican candidate for President, no one will be better pleased than Mr. Bryan.

No doubt Foraker, Cannon, Fairbanks, Tappan, and all the others who have been popular for a first term were as good as Mr. Roosevelt's for a third.

There is always a chance for a young man without capital to grow rich. All William J. Bryan had to start with was his gab, and now he owns five or six farms.

The present Pennsylvania Legislature is engaged in the time-honored custom of investigating the charges of graft laid against the preceding Legislature.

One of the magazines contends that a public speaker must have physical vigor. To protect himself from attacks at the hands of the audience, we suppose.

Gambling among married women is said to be greatly on the increase. Having taken the first step, a married woman finds it easy to continue on the same path.

Politics makes strange bedfellows. It is true, but the belief is that if Senator Foraker and Mr. Roosevelt were to strike a town where there was only a single vacant bed, one of them would prefer to sleep in the back yard.

Every time something unusual turns up from the past, Alton B. Parker seems up at it as one of the causes of his defeat. But what's the difference? The important thing is that he was defeated. The cause may have been many, but they were all satisfactory.

know him better in this respect than the negroes themselves. From all the information at hand, it appears evident that the President was right in discharging these negroes. They were not discharged because they were negroes, but because they violated discipline.

Now every act of President Roosevelt's life and every public utterance that has ever come from his lips has established in the minds of all fair Americans the conviction that even-handed justice is his policy and that no prejudice of race, religion, nationality, or any other kind more or less narrow, aways him at all in whatever action he may take. He commands a man not because he is rich as little because he is poor; not because he occupies a high position, as little because he is in humble circumstances; not because his skin is white, as little because it is black. When condemnation or punishment is to be meted out, the same fairness, the same utter elimination of prejudice, always characterizes the action of the President. He condemns a man, not for the color of his skin, not for the weight of his purse, not because of any social, political or other position he may occupy in the world, but because in the President's mind he is a bad man, a bad citizen; at least he has been so judged by the President for every body to condemn as a bad act, an unpardonable act, an act in some way unbecoming an American citizen.

Where the President has shown himself a thorough master for Mr. Foraker in politics is in the appointment of a negro, Tyler, of Foraker's own State, to one of the most valuable offices in the President's power to give. This man Tyler is no doubt thoroughly fitted to perform the duties of the office to which he is appointed. We judge this by the fact that Roosevelt appointed him. This action of the President will demonstrate to all reasonable negro citizens, the President's utter lack of any suspicion of prejudice against the race.

A FOOL BREAKS IN.

The J. D. Hooker pipe organ exploits a fantastic farago of nonsense concerning the city's water supply, written by one "W. E. Sloan," and says it is "a strong arraignment, bristling with truth."

Who or what W. E. Sloan has the unhappiness to be. The Times does not know; but it does know that his contribution to the water discussion bristles with statements diametrically opposite to the truth, and with arguments too absurd to debate.

For example, this fantastic scribbler asserts that Mr. Olmsted was sent by the proprietors of the Owens River conduit as an "expert engineer" to investigate the project, and that his report was suppressed and "never has been referred to from that day to this." He displays his abysmal ignorance in the statement that there has been no effort to secure the underground flow of the Los Angeles River. He "supposes" that the Los Angeles conduit is to be an open flume with flat bottom and perpendicular sides, and he assumes that the run-off of Owens Valley is determined by the rainfall at Independence.

Arguments based upon such ridiculous facts and premises are not worthy of the proprietors of the Owens River conduit as an "expert engineer" to investigate the project, and that his report was suppressed and "never has been referred to from that day to this." He displays his abysmal ignorance in the statement that there has been no effort to secure the underground flow of the Los Angeles River. He "supposes" that the Los Angeles conduit is to be an open flume with flat bottom and perpendicular sides, and he assumes that the run-off of Owens Valley is determined by the rainfall at Independence.

WHO'S IN THE HOLE?

The right to impress men into service in her merchant marine and into her warships. The Civil War was fought, when we came to the bottom of the subject, to set free millions of human beings held in slavery by no claim other than the color of their skin. It was for human liberty that the United States shot her guns and sailed to Cuba to deliver the Pearl of the Antilles from under the heel of Spain.

Congressman Cushman calls the attention of the American people to the fact, so evident to most eyes, that we are not doing fighting for the freedom of the individual. At the bottom of American principles lies the cardinal one that every citizen of this republic is a sovereign. He has no master and shall have none. He is entitled under our Constitution to the right to guide his life as he pleases his best, without consulting any mortal beneath the skies. All he has to do is to pursue his course as his best judgment dictates, without trespassing on the rights of any neighbor. The right of "liberty and the pursuit of happiness" in these few words we have the very kernel or the germ of American principles.

All in America are not Americans. We do not for a moment forget the excellent qualities of intellect and morality possessed by thousands, yes, millions of the stalwart immigrants who have come to us from abroad. But with these millions of citizens of this claim have come in thousands and tens of thousands of an entirely different caliber, quality, character and disposition. They have come from under the heels of European and Asiatic tyrannies, with a burning hatred of all forms of government and of all law flaming in their hearts. They are in many cases brutally ignorant, in just as many cases more than brutally immoral. Mingled with these is a small class of immigrants to whom the education must be made that they are highly intelligent and educated. But they are vicious in their detestation of all forms of law and of everything that stands for order and government. Under the leadership of men and women of this type, there has been built up here a system of tyrannical coercion over the industrial classes by labor unions, made up of wage-earners largely of foreign birth, or but one degree removed from foreign birth.

Now there is no disposition to dispute the right of these people, whether native or foreign, to organize themselves for their own improvement and advancement. That is a right guaranteed to them wherever they may be born by the very principles for which Congressman Cushman contended and for which we are contending. It is the individual right of the individual man to do with his own time, talents, muscle and efforts just as he sees fit. This battle is not against these labor unions as such. It is against their pretensions to deny to others the rights they claim for themselves. As quoted above, from the words of Mr. Cushman, this pretension "denies to us honest men the opportunity to labor when we will."

The greatest handicap upon the American people in their struggle for industrial liberty is the spineless, senseless, cringing politician, who, because labor unions are organized, are noisy and aggressive, forgets that for each one of them in the country there are ten quiet, peaceable, orderly, industrious toilers who make no noise, who claim no rights they do not concede to others. If the American people would single out men like Cushman for political honors and mark the cringing, spineless, cringing type for reprobation and condemnation, a very important stroke in this latest warfare for individual rights would be dealt and half the victory would be won.

Distribution of Water.

LOS ANGELES, April 12.—(To the Editor of the Times): In your editorial of today on "Victory-Obstructionism" you state that the water supply of the Owens River valley is being distributed to the Owens Valley from the Owens River. This is a very serious matter, and it is one that should be given the most careful consideration.

The Owens River is a very important water source for the Owens Valley. It is the only source of water for the Owens Valley. It is the only source of water for the Owens Valley. It is the only source of water for the Owens Valley.

The Owens River is a very important water source for the Owens Valley. It is the only source of water for the Owens Valley. It is the only source of water for the Owens Valley. It is the only source of

FALLS FAINTING TO THE FLOOR.

Weakness Overcomes Dawson in the Courtroom.

Effort to Trace Mysterious Letter to Him.

Accused in Little Danger of Ultimate Conviction.

Douglas Dawson fainted at the close of the morning session yesterday in Justice Frederickson's court. The former general manager of the William H. Hoegs Company sat through the proceedings until the close, a most interesting listener. Just as the last witness for the state, Dawson rested in his chair and would have fallen to the floor but for the support of newspaper men standing near. He was revived and a recess was taken until this morning at 9:30 o'clock. The conviction of Dawson may demand a postponement of the case for the present. From the moment Richard Westbrook, of the Hoegs Company, was called to the stand at 9:30 o'clock, until the noon recess, the hearing was marked by constant clashes between counsel for the defense and the Deputy District Attorney. Semilogical, tricky and a racist to inferior methods were some of the charges made by the defense. It was declared that an effort is being made to bound Dawson into prison. The mysterious "T. P. B." letter was again brought up to show that Mrs. Dawson is the author of the strange missive. The typewriter evidence is a subject of the hearing. A Hamilton typewriter at the Dawson home, and mailed to Frederick Harrison, employee of the Hamilton Company, as a newspaper, and a nurse were placed on the stand to show how the typewriter came into the possession of Mrs. Dawson. During the taking of this testimony both Mr. and Mrs. Dawson listened quietly in court. Mrs. Dawson turned to her wife and spoke to her in a whisper. Mrs. Dawson appeared calm throughout, and tried to evade her husband from becoming excited or wrought up when her name was mentioned.

TYPEWRITER RENAISSANCE.

The prosecution sprung a promised surprise when R. M. Thompson, an 18-year-old clerk employed by the Hamilton Typewriter Company, testified that Mrs. Dawson had rented a typewriter from the company on March 11. Thompson became badly rattled on cross-examination by Attorney Rogers, and eventually denied every part of his testimony. While testifying, Thompson uttered around the courtroom as if he rarely enjoyed the situation. When grilled by Rogers, the smile left his face. However, he began to contradict statements which he had apparently made at random. He was sent to get the records of the company and when he placed on the stand again this morning.

An expressman named Goldsmith, said he had taken a Hamilton typewriter to the Dawson home, No. 628 Westlake avenue on March 11. When Dawson pointed out to him in the courtroom by Deputy District Attorney Fleming, the expressman recognized him as the person who had received the typewriter. When Rogers opened a rapid cross-examination of Goldsmith, the latter was in a state of embarrassment. He could not remember ever having taken any other typewriter to other persons. He was asked for the company for the past four months. He said he could remember having taken the typewriter to the Dawson home on the 11th because of the entry shown him in the company's books. Miss Carrie Peterson, a trained nurse, who had attended Dawson during his illness, testified to having seen a typewriter in the Dawson home. Her testimony was in the nature of a surprise, and the ruling of Justice Frederickson favored the defense. The nurse spoke freely of what was done in the Dawson home during her ten days' stay there. She said she had seen a typewriter in Mrs. Dawson's bedroom and declared Dawson had often risen to eat his meals. Attorney Rogers had only begun to question Miss Peterson when the noon adjournment interfered with the further hearing of the case. The nurse again took the stand and the question of the competency of her testimony will be decided by Justice Frederickson. Throughout the morning the prosecution sought to prove by at least four of its witnesses that the letter was written by the wife of the accused. Justice Frederickson, in a critical moment of the hearing, objected to testimony tending to bring Mrs. Dawson into the case. He stated that he will withhold his opinion on the admission of such testimony until later in the examination.

FINDING THE MONEY.

P. R. Silverwood, a director of the club, told of finding the money in the suit case which was opened in his presence by directors of the Hoegs concern and a detective. Silverwood saw a black overcoat rolled up in one end of the suitcase and the money wrapped in two handkerchiefs and a pair of gloves. The mysterious "T. P. B." letter and the manner in which the detective department has manipulated it is believed to have removed the possibility of an ultimate conviction in the case. It is believed that the letter is a forgery and that the case will be dismissed. The case is a conspiracy. It is of record in the case that at least two witnesses, testifying for the prosecution, swore that the changes made in the letter were the work of Detective Ziegler. Lord Kromer, the British Agent and Consul-General in Egypt, has resigned and Sir Eldon Gorst has been appointed to succeed him.

GOOD SENSE IN THE USE OF MEDICINE.

New Prepared Household Remedies May Be Intelligently Employed and Proof of What One of Them Has Accomplished.

There are some who will not employ a doctor under any circumstances and others who argue that we should not use medicine at all. A simple cough mixture without calling on a medical practitioner to prescribe it.

As usual, the truth lies between the two extremes, and common sense is all that is required to find it. Safe family remedies, tried by time and proved valuable by experience, will always have their place in the household, and there are constantly occurring instances in which they may be properly and intelligently used. A good tonic, safe for use without a doctor's prescription, with complete satisfaction for taking of it, is Dr. Williams' Pink Pills, will save many calls on the family doctor's time and will save money, time and suffering to the patient.

If you feel run-down, either through overwork, worry, or some great strain on the bodily forces, you cannot do better than to use Dr. Williams' Pink Pills. Mrs. Nellie Wood, of 377 E. Ford street, Johnstown, Pa., says:

"After the birth of my baby I did not get very strong, but grew weaker. If anything, as time went on. My little excitement or work, even a walk, made me tired out and short of breath. My digestion was poor and I didn't get hungry. If I forced myself to eat, the gas on my stomach distressed me terribly. I was pale and nervous and was often troubled with dizzy headaches and palpitation of the heart."

"I lost interest in life and became melancholy. The medicine I took for over a year didn't help me, so I began to use Dr. Williams' Pink Pills. Sooner than I had hoped, I noticed a little benefit and continued the treatment until well. My complexion became healthy and blood pure. My appetite came back, digestion was good, and gradually my nerves grew strong. I felt better and stronger in every way."

Dr. Williams' Pink Pills have also cured such blood diseases as anemia, rheumatism, after-effects of the grip and fever. Owing to the intimate relation between the blood and nerves, the Pills have been found invaluable in such nervous diseases as dizziness, nervous debility, neuralgia, St. Vitus dance and even partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

LONDON QUITS HEARST.

Refuses to Have His Manuscript Chopped by "Willie" and Compulsion Contract's Quit.

Jack London has quit "Willie" Hearst. London, who admitted it on his visit to Los Angeles, indicated that he had no great degree of love for the yellow journalism, anyway. The trip is one of appeal to the imagination of any one, and gives promise of riches in literary material. London was to send his stuff to the Compulsion, and this has been featured by Hearst for several months. But London was to deliver into actual conditions, as well as use other materials for his literary work. From the old corners of the earth he is to visit; and Hearst recently made the condition that he was to have the privilege of editing the manuscript without consulting with its author. This was the splitting point: London refused absolutely to have his manuscript emaciated by Hearst. London's plans thus were somewhat upset, but he was determined to make the ocean voyage, and he has mortgaged his ranch at Glen Ellen to raise the necessary funds, and will depend on marketizing his work after the long trip is ended. London wanted to give a lecture in Los Angeles during his visit, and he grabbed friends here to that effect while he was in Goldenfield; but the telegram was delayed, and London arrived in Los Angeles before the message was delivered, and too late for him to be billed for a speech. London was to have sailed out of Oakland Creek with the bark at high tide on Wednesday.

IN AID OF INDIA'S CHILDREN.

High-class Programme at Benefit Concert of Indo-American Woman's League.

The concert in aid of the Indo-American Woman's Restoration League, held in Elysian Hall last evening, was successful both as a charity affair and as a musical event. The purpose of the league was explained to the audience by Lawrence Holmes, who told something of the misery which prevails in India because of the unnatural and hideous custom of compelling infant girls to marry. The Indo-American league is endeavoring to bring about so strong an agitation on the subject, in India and elsewhere, that the King of England will take cognizance of the situation and establish a law creating an age limit for marriage. The entire programme following Mr. Holmes' address was of a musical nature. Henry Harrison Balfour, who has a rich, baritone voice, sang "The Gipsy Night" effectively and well, and Miss Katherine Ward delighted the audience with two solo songs. The most successful of her songs was "The Gipsy Night," which was sung with piano obligatos by Oscar B. Seiling contributed excellent violin solos with piano obligatos by Oscar B. Seiling. The programme was a success, and the money raised was a part of that conspiracy. It is of record in the case that at least two witnesses, testifying for the prosecution, swore that the changes made in the letter were the work of Detective Ziegler.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought.

Signature of J. C. Atkinson.

Dean's Friday Bargains

\$1.00 Radiumite Razor Free
A splendid quality razor—the popular "Radiumite" you hear so much about. Given absolutely free Friday with each Radiumite strip sold at \$1.20. A rare chance to get a good razor FREE.

\$1.00 Fountain Syringe 50c
We bought a large quantity of these at a bargain. They are good quality, made from white rubber, type-glass sides, have three tubes. Friday we give you the benefit of our buy—we price them at half.

25c Toilet Soap \$4.85
An excellent case of genuine cow hide. Well preserved—has brass knobs and hinges—has been used—an excellent value at \$7.00. Friday, each... **\$4.85**

25c Wash Rag Holder and Wash Rag... 25c
25c Phosphate of Soda... 15c
15c White Vaseline... 10c

Several States during the summer and
fall, and will sail for India in October.
Miss Lee meanwhile studying the Hin-
doo language.

Miss Lee has been very popular
among the young people of Immanuel
Church, and all others who know her,
and a farewell reception was given in
her honor last night at Immanuel
Church.

CONVENTION CLOSURE.
SUNDAY-SCHOOL WORKERS.

The Southern California Sunday-
school convention came to final ad-
journment last night, at the close
of a splendid lecture by Dr. Robert
McIntyre, before a great audience in
Benson Auditorium.

It is said that the number of offi-
cial delegates was not so large as at
some former State conventions, but
the crowds that attended all the ses-
sions were never surpassed, and the
entertainment and instruction afforded
were equal to the best.

C. D. Meigs, the "Texas Cyclone,"
was an ever-bubbling fountain of in-
formation, and was constantly flow-
ing. He was on the program a lot
of times to his allotted place, but if
anybody else failed to show up, Meigs
filled the breach, or, if there was some-
thing which nobody could do, Meigs
came to the rescue with a quick
ready and entertaining explanation.

The convention never tired of him, and
he never tired himself, and he was
never more entertaining than yester-
day, when going through the practical
details of organizing a Home Depart-
ment on the platform. He returns di-
rectly to his home in Texas.

Yesterday afternoon different phases
of the duties of a superintendent were
discussed by Dr. H. W. Brodbeck,
Rev. A. W. Palmer, Rev. J. P. Mc-
Knight and Dr. B. C. Atterbury. They
brought out many good points on the
relation between the superintendent,
the officers, teachers and the pastor.

The resolutions adopted near the
close of the afternoon session were
of the stated kind, except that which
warmly complimented Hugh C. Othman,
general secretary, on his thorough-
ness of his work, and pledged him the
heartiest support and cooperation.

"Battled-up People" was Dr. Rob-
ert McIntyre's subject last night at
Benson Auditorium, and it was a suc-
cessful climax to the convention.

METHODIST INSTITUTE.
MOVING FOR SALVATION.

Field Secretary Hugh E. Smith of
the Methodist Commission on Aggres-
sive Evangelism, made final announce-
ment of the dates for a Methodist in-
stitute, to be held in this city under
the leadership of Mr. Smith and Rev.
Theodore S. Henderson of New York.

The dates here are May 27 and 28, and
Riverside, May 29 and 30.

In consultation with the presiding
elders, all arrangements have been
perfected for the institute, which will
be held during the day, and at night
great mass meetings are planned. Dr.
H. W. Brodbeck, the successful su-
perintendent of the First Methodist
school, which enrolled 305 scholars
during the month of March, will speak
during one of the afternoon sessions
on "Evangelism in the Sunday
School."

Mr. Smith, who is now holding a se-
ries of revival meetings at Riverside,
reports almost one hundred converts
in three nights.

COAST LINE OPEN TODAY.

The Coast Line of the Southern Pacific
will be open through today.

Trains are due to leave Los Angeles
at 4 p. m. and 7:30 p. m., and will
run via the Coast Line as before the
blockade. Trains arriving at Los An-
geles at 8:45 a. m. and 11 a. m. will
arrive via the Coast Line tomorrow.

Trains leaving here at 1:30 a. m., and
arriving in San Francisco at 11:45
p. m. will begin their through trips
on Saturday. The Shore Line Limited
will be reinaugurated on Tuesday.

Investment. Not
A Speculation

Money Placed in Genuine Industry
True Business Policy

When it becomes necessary to legiti-
mately expend one dollar to make
two, a business man never hesitates.
This is wisdom. It is sensibly invest-
ing for certain results. A parallel
case is where a company needing ma-
chinery enlists the aid of outside cap-
ital to increase the supply of their
commodity for the benefit of them-
selves and the shareholder. In such
a condition is the company owning
the coal mine discovered near Los
Angeles.

They have the coal, but require an
expense-reducing equipment to move
it. Consequently they are now offer-
ing a limited number of shares to the
public at 50c per share; par value \$1.

The shares are rapidly being pur-
chased. They will certainly not last
much longer; indeed, may be taken
up before the day closes. Contracts
are now made for the machinery and
estimated have been furnished for a
branch line to tap the Santa Fe main
line only 7 or 8 miles distant.

Any bona fide investor can see the
mine at the company's expense.

For further information, address or
call on the Southern California Coal
Mining Co., 643 Chamber of Com-
merce Building.

"South of the Tehachepi"
REPORTS FROM CORRESPONDENTS OF THE TIMES.
CLIPPING LINE OF UNDERGROUND.
THEY TAKE CHINESE
AND DEMANDING.
The flames that last night burned their home to the ground. The house and everything in it were destroyed. Mrs. Rubottom and the boys escaped with their lives, and nothing more, except the night clothing they had worn to bed. The fire occurred shortly after 10 o'clock, and within a few minutes the home was a heap of blazing ruins. The family is left destitute, without a dollar in the world, and today a subscription is being circulated for their benefit, and enough will be raised to build a small house.
Mrs. Rubottom and the two boys went to bed as usual, and had been asleep some time when Mrs. Rubottom, who is helpless from rheumatism, was awakened. The bedroom was full of smoke and flames. She tried to get to her feet, but she was unable to do so. She reached for her children, who were sleeping in the room. She picked up her mother and managed to get her safely out of the fast-burning structure. Alvin, the younger, ran out of doors. Thinking his mother was still inside, the plucky little chap ran in the house after her.
In his hurried attempt to save his mother the boy was severely burned about the hands and head. His hair came out, but nothing could be done. Not a thing could be saved.
An alarm was turned in and the firemen made the run to the home, which was situated on Sullivan street, between First and Fifth, many blocks from the firehouse and nearly at the river. There was no water to be had for fire fighting, even had it been possible to have done anything had there been. The house was a light frame building, and burned rapidly. In fact, it was well along toward destruction when the family was aroused. The house was worth only a few hundred dollars.
C. E. Rubottom, formerly a jeweler here, is now in Arizona.
Outdoor sports at Coronado.
OFFER THANKS, BUT DON'T RIDE.
VETERANS IN PARADE MARCH IN SANTA BARBARA.
Carriages Are Offered for the Disabled Ones, but None Avail Themselves of Offer—Parade of Soldiers of Battle at the Channel City Encampment.
SANTA BARBARA, April 11.—The time of martial music, the grand phalanx of the old boys of the G.A.R. augmented by uniformed civic bodies and school children, moved along State street today in measured tread in the fourth annual parade of the G.A.R. encampment, department of California and Nevada.
The step of the old veterans was not as firm as in the '90's, but the tread was just as determined. Side by side the now grizzled-haired patriots of American independence and the union of the states passed in review before a multitude of people who lined both sides of the route of the procession, and lustily cheered the boys who stood at a foot trim in the hour of peril. On, on moved the procession with an occasional break caused by the slower tread of an infirm veteran, supported on the proffered arm of a comrade, cheer after cheer rent the air as the veterans of the great civil war, in their march, demonstrating in unmistakable manner the indomitable will of American manhood, ever ready and willing to follow the flag.
Although carriages had been provided for disabled comrades none would take advantage of the kindly offer, and it was march or remain out of the procession with the boys of blue.
The column, under command of Grand Marshal C. C. Hunt, moved in the following order:
FIRST DIVISION.
William A. Kimball, marshal.
Mounted police.
Los Angeles Veteran Drum Corps.
Grand Marshal C. C. Hunt and aides.
Department Commander G.A.R. William C. Alberger and staff in carriages.
Department President Clara Warburton, W.R.C., and staff in carriages.
Department President Ladies of the G.A.R. Abbie E. Kriebs and staff in carriages.
Mayor T. D. Wood and City Council in carriages.
Flag Bearer A. D. Root.
G.A.R. band.
SECOND DIVISION.

Uniformed Drill Corps, Jefferson school.
Native Daughters' float.
Santa Barbara N.S.G.W.
FOURTH DIVISION.
George W. McComber, marshal, U. S. Forest Rangers, William N. Sloan, commanding.
Citizens in automobiles.
The Veterans' Drum Corps of fifteen members, which led the big parade, made up of aged heroes of the war, received ovation upon ovation along the entire line of march. The boys handled the sticks and life with as much vim as they could have done in the days of yore.
The Woman's Relief Corps escorted the department president, along the line of march, and a number of the members appeared in the parade in a float carrying American flags.
Rear King Post of this city, under command of Post Commander W. O. Waters, turned out seventy-five strong and acted as escort to the veterans.
A pretty feature of the post's showing was the introduction of a little girl, dressed in white, carrying a silken flag and a uniformed lad, representative with the uniform of the G. A. R. carrying a flag, both marching beside a flag-bearer of the local post.
Sedgwick Post of Santa Ana, which is making a fight for the next annual convention, made a fine showing in the line of march and the members threw enthusiasm into the demonstration by singing old war songs.
A dainty feature of the parade was the girls' drill corps of Jefferson school under command of Prof. Hankerson, who has spent much time in perfecting the children in the intricate evolutions which were executed during the line of march. The girls were dressed in white with red sash and black shoes.
The Jefferson

**"Let me tell you—
Something about Pabst."**
"For over sixty years Pabst has been brewing quality beer."
"Quality produces quality."
"The best materials, the best workmen and the best methods—these make the best beer."
"It is the quality of the malt, the quality of the hops, the quality of the Pabst methods that make"

Pabst Blue Ribbon
The Beer of Quality
"There is a reason for this Pabst quality."
"For four generations the constant aim and purpose of Pabst has been to brew quality beer."
"Honest has been the greatest Pabst—no detail has been too small—only the final results have been considered—the perfection of brewing."
Order a case of Pabst Blue Ribbon today and satisfy yourself that quality in beer, like quality in everything else, is worth having.
Made by Pabst at Milwaukee

An Author Who Believes in His Book
THOMAS W. LAWSON
BOSTON.
February 28, 1907

Gentlemen:
Enclosed find my check for \$5000. I send it to you with the understanding that it is to be paid to anyone who can show to me why the stock operations conducted by Robert Brownley, as shown in my book, "Friday, the 13th," would not have been executed by any member of the Stock Exchange in the past or why they cannot be executed today.
You will understand I make this offer in the broadest way and will not interpose technicalities. As a matter of fact, I say to you that such operations as Bob Brownley's have taken place in the past. Believe me,
Yours very truly,
Thomas W. Lawson

drill corps was strengthened by the boys of the school drawing decorated caissons. Drill teams of boys from other schools made a fine appearance, one corps of which was pretty uniformed in blue with white caps. The members of Reina del Mar Parlor, N.D.G.W., appeared in the parade in a float trimmed in California mustard bloom. The ladies were dressed in white. A grizzly bear occupied a prominent position in the center of the float. The members of Santa Barbara Parlor, N.S.G.W., acted as outriders for the Native Daughters' float. Following the float came the Native Sons, on horseback. The uniform of the natives was a poppy-colored tunic, necktie and hat-band. The horses were set off with a poppy-colored collar. The effect was magnificent.
The Forest Rangers, twenty-five strong, under the captaincy of Chief Forest Ranger Willis N. Sloan, made a fine showing on mounts. In the new uniform recently provided by order of the department of the Interior.
The parade was reviewed by Department Commander Alberger and staff in front of the department headquarters at the Hotel Arlington.
Already the gardens in every residence section are donning their brightest attire and giving assurance of a plentiful supply of blossoms for the adornment of the scores of vehicles of every description that will participate in the floral parade. In the larger nurseries in and about Los Angeles gardeners are preparing to fill extensive and costly contracts that have been made with owners of coaches, drags and automobiles.
New entries are being received daily by Secretary F. J. Zeehandelaar at his office in the Wilcox building. By next Monday the list is expected to be complete. It is confidently anticipated that the feature of the parade in numbers and variety will surpass the most sanguine expectations.
The entire week commencing May 5 will be more or less devoted to celebration. The electrical parade will take place on the evening of May 7, and is to be repeated on May 8 and 9. Downtown sections of Spring, Broadway and Hill streets will be illuminated with festoons of lanterns containing incandescent lights. The crowning fea-

Weak Men
Let Me Guide You on Your Way to Regain Your Health and Renew Your Strength

DR. TAYLOR, The Leading Specialist
You Pay When Well
What better proof of more efficient organs can I offer than that I am willing to wait for my fee until I effect a cure? Could I afford to make such an offer if I was not absolutely certain of curing every case I take?

Get Cured Now
If it is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. The cure is absolutely certain. Cases no matter how long and how severe can be cured. You need not be distressed from your weak condition. I guarantee to cure all cases in which the many ailments mentioned have failed to respond to other treatment, and no amount of doctors, electric belts and other appliances.

Examination Free
I offer not only Free Consultation and Advice, but to every case that comes to me I will make a Complete Examination and Diagnosis without cost to you. I am always ready to give a full and complete examination. My office is open all day from 9 a. m. to 9 p. m., and Sundays from 10 a. m. to 1 p. m.

Take the Kite
\$3.00 Excursion
—SANTA FE—

The country was never more beautiful than it is at the present time. The hills and valleys, dotted with wild flowers and the thousands of acres of trees are laden with blossoms and gleaming fruit. The most satisfactory way of seeing it all is to take the great Kite excursion some of these mornings. You will find it the most interesting and delightful outing of all. You get a fine view of the high mountains, beautiful cities and towns, etc.—all miles of continuous track, and no scenic twice seen. Daily train at 8:30—stopping about two hours each in Riverside and Redlands; or you may arrange for extensive stop-overs at these two places. For further information, call up E. W. McEne, 324 South Spring street.

A JOYFUL JOURNEY TO EASTERN CITIES
With beautiful scenery to view, freedom from dust and smoke (engines burn oil and rounded is oiled), and excellent train service will be your reward if you travel via the

THE WEATHER. EXCHANGE INTEREST IN THE OIL STOCKS.

COMPARATIVE TEMPERATURES.

City	Today	Yesterday	Monday	Tuesday	Wednesday	Thursday
Los Angeles	72	70	70	70	70	70
San Francisco	60	60	60	60	60	60
San Diego	70	70	70	70	70	70
Albany	70	70	70	70	70	70
Chicago	70	70	70	70	70	70
St. Louis	70	70	70	70	70	70
Philadelphia	70	70	70	70	70	70
New York	70	70	70	70	70	70

The maximum is for day before yesterday. The minimum for yesterday. The mean is the average temperature for the two days.

Yesterday's Forecast and Report.

U. S. WEATHER BUREAU, Los Angeles, April 11.—(Report by A. R. Walker, Local Forecaster.) At 8 o'clock a. m. the barometer registered 30.1; at 5 p. m., 30.2. Thermometer at 8 a. m., 60; at 5 p. m., 70. Wind, S. by E. at 8 a. m., 10; at 5 p. m., 15. Clouds, 100. Precipitation, 0.00. Maximum temperature, 70; minimum, 50. Forecast for today: Partly cloudy, with light breeze from the south, and a few clouds in the afternoon. Maximum temperature, 70; minimum, 50.

Weather Conditions.—The moderate

season over Southern California has moved southward, while the storm over the Colorado has moved toward Texas. The storm caused little precipitation of clouds in the western half of the United States, and with the exception of some local showers along the coast of California and at widely scattered points in the Middle West, clear and generally pleasant weather prevails this morning west of the Mississippi River. Snow falls generally yesterday in the Middle Atlantic and New England States. It is cold this morning in the southern States, and frost is reported in Tennessee, Georgia and South Carolina. The weather in Los Angeles and vicinity will continue fair during the next thirty-six hours, probably with clouds or high fog tonight and Friday forenoon.

Forecast.—Local forecast for Los Angeles

and vicinity: Fair tonight and slightly warmer south in the morning. Los Angeles, April 11.—(Rainfall data.)

INTEREST again was centered early about the oil stocks during the early call on the Stock Exchange Thursday. Trading was somewhat scattered, and small in volume, and prices seemed inclined to sag slightly.

Mexican Petroleum was an exception in the weakening movement, sales being made at 1.35, showing a rise of 1 point on the last previous call transaction of a board lot. The stock was in firm demand, closing at 1.34 1/2. Oilfield Land was handled to the extent of 2000 shares, the price being at 1.34 1/2. The close quoted the stock at 1.34 1/2.

Central Oil was firm at previous quotations. Trading was carried on limited amounts at 1.15 1/2, buyer thirty days. The close was at 1.15 1/2. Continental was bid for at 1.15, and offered at 1.14, without trading.

Globe Oil came in for a fair amount of play, 2100 shares being handled at 1.15 1/2 for the board lot, with the bid for bringing 1.15. The close was at 1.15 1/2. Reed Crude was bid for at 1.14, closing without an offering. Columbia Oil was dormant, closing at 74, none offered.

Associated was sluggish, and much inclined to slide, trading being recorded at 1.15, and closing at 1.14 1/2. One lot was tied up at thirty days call at 1.14. The closing quotation was 1.14 1/2. Rice Ranch was bid for at 2.11, and closed with an asked price at 2.00; 2.00 was bid for a thirty day call, which was offered at 1.94.

Union was inactive, closing at 2.04 1/2. United Petroleum was offered at 2.05, closing without a bid. Western Union was extremely strong, a bid of 2.05 being made for ten or twenty shares. The stock first was offered at 2.05; later this was withdrawn for an asking price 2 points higher at 2.07. The remainder of the oil list was quiet.

The only other trade was made on a "buy and sell" deal, when five shares of United States Long Distance Telephone Company were sold at 50. The bidding for miscellaneous stocks was for nothing but brisk. Little change resulted in the quotations heretofore ruling. Banks also were sluggish, though showing a rise; Home Savings, which was wanted at 1.04, a gain of 1/2 point, as compared with Wednesday, while California Savings was bid up for nothing but brisk. The change was closing at 1.12 1/2. Bonds were inactive.

MINING STOCKS HANG. The volume of trading on the mining stock reached the total of 57,000 shares. There was no encouragement, however, in the prices ruling, except stock called hanging on the same level at which it has rested now for months.

California Hills is the leader in the trading, 20,000 shares of the stock changing hands at 4 1/2. Next in importance is Searchlight, which was handled to the extent of 15,000 shares, the price ranging from 5 1/2 to 5 3/4. Consolidated Mines was traded in to the extent of 9,000 shares at 1.04 1/2. Nevada Searchlight was at 1.04 1/2. Johnnie Consolidated sold at 1.04, and at 1.04 1/2. Others were inactive.
